Description Change project name to selene-sql-model since selene-j2ee-core has moved its classes about lists to project selene-core and, now, they don't depend on J2EE (refs #103). Move all classes from project selene-j2ee-model to a new project called selene-sql-model. Project selene-sql-model will depend on selene-minimal-pom and selene-model. Change dependencies in the rest of selene projects to the new project. Change selene-j2ee-model parent to selene-j2ee-pom. Change dependencies of selene-j2ee-model to selene-sql-logic-model			
Subtasks: Soporte # 120: Change dependency with selene-j2ee-model to selene-sql-model
