Description Change project name to selene-sql-logic-model since selene-j2ee-core has moved its classes about lists to project selene-core and, now, they don't depend on J2EE (refs #103). Move all classes from project selene-j2ee-logic-model to a new project called selene-sql-logic-model. Project selene-sql-logic-model will depend on selene-minimal-pom and selene-sql-logic. Change dependencies in the rest of selene projects to the new project. Change selene-j2ee-logic-model parent to selene-j2ee-pom. Change dependencies of selene-j2ee-logic-model to selene-j2ee-logic			
Subtasks: Soporte # 121: Upgrade selene-j2ee-logic to version 0.0.4
