Description			
An internal server error occurred when trying to delete a group:			
<div>A JTA EntityManager cannot use getTransaction(); nested exception is java.lang.IllegalStateException: A JTA EntityManager cannot use getTransaction()</div>			
Make a test to delete a group throw ObdGroupService.			
Make a test to create a group, so ObdVinGroupService will also called.			
Make use of the @Transactional and @EnableTransactionManagement annotations into ObdGroupService.deleteGroup and Application, respectively.			
Try to modify GeronimoTransactionManagerFactory and JTA EntityManager by JPA.
